Including you two on this. We should get the R10 pebble mine letter soon and you two should be looking at it on Monday as part of your training process as we prep for Brittany next week

Thanks

Cindy – I would just label it 404 process. I suspect Mid 2020 also should have Permit Decision under the 404 Process. Usually this happens shortly after the ROD is completed.

OK FINALLY – here's a format we have with feedback from OP IO. Essentially they want things batched in "themes" of resource areas vs the individual comments.

Also we have been asked to share the super draft comment letter we get today with the PDAA for OP (Kevin Wheeler). He understands that this version will not have been reviewed by HQ staff but he wants to review it so that he has more time to understand the details in prep for the briefing.

Thanks!!

Cindy
